Document History

This section should only be used when a new version of an existing document is created. Newer versions should detail which sections have been amended/added, including who reviewed and approved the document.

Version	Date	Updated by	Approved by	Description
1.0	01/07/2024	Gavin Wignall	Ed Parry	Document created.

Introduction

This document has been created to provide a list of approved activities which can be configured as part of the GP implementation early access process.

Any configuration which relates to a staff member will not be able to be completed and will be done on 'Go Live day'.

What can you do?

IT Team

- Printer configuration
- Integration Partners
- Gateway
- Scanner configuration
- Touch screen configuration
- Label printing configuration

System Admin

- Organisation Preferences (Excluding any preference relating to staff members. For example, appointment staff ordering and appointment bookmarks)
- EDI Setup
- SMS reminders
- Public holiday / closed days
- Organisation Group (inc. any content group like Ardens etc. You may need to speak to them about early access or sending the invite earlier than usual)
- User Preference Defaults
- Device Manager (for mobile working / Brigid access)
- Share In Rules

Clinical Development Kit (CDK)

- Data Entry Template
- Auto Consultations
- Questionnaires
- Protocols
- Word Letter Templates
- Patient Status Alerts
- Views
- Form Maintenance
- Configured Lists
- URL and Programme Maintenance
- Address Book Management

These instructions are correct at the date of writing. For further assistance, consult the SystemOne Online Help.

- Vaccination Templates
- Care Plan Templates
- Goal Template Maintenance
- Referral In Template
- Recurring Patient Notifications
- Consultation Activity Template Maintenance
- Equipment
- Code Synonyms
- Code Formularies
- Recall Types
- Visualisations
- Message Preset Maintenance (will need to link replied to a staff member / Team when Live)
- Drug Formularies

Reporting

Please note that any reports that you run will not return any patients. You will be able to build and configure the list below but at this point in the process no patients will exist in the unit.

- Clinical Reporting
- Batch Reporting
- Report Output Maintenance
- Strategic Reporting Extract Configuration
- Scheduled Jobs

Dispensing

You will be able to create Drug Stock Lines but should not add the stock levels at this point in the process. This means that the admin burden to add all the stock lines on Technical Go Live day is removed but instead you will be required to add the stock quantities on Go Live day.

- Create Drug Stock Lines
